Spring 2020

Welcome to the Erevena newsletter for Spring 2020

Whilst the world is in turmoil, the last few weeks have really brought home how much we have to be thankful for.

In our case, the support of our team, our clients and our friends has been truly inspiring.

To my colleagues, a huge thank you for the way you have all reacted to this crisis, we have a number of the team who have had and are now mercifully recovered from Covid-19. The team's professionalism through this period has been amazing to watch, and we have even managed to have some fun along the way.

To our clients and friends in the venture community, it has been humbling to watch how so many of you have reacted to the situation, and the humanity you have shown.

Amongst the chaos, many of you have done amazing things. To highlight just a few:

[Zenly](#) have pivoted their location-sharing app to gamifying shelter-in-place with their Stay At Home challenge showing users who are social distancing the best and sharing prevention tips.

[Babylon Health](#) are introducing a 'care assistant' for those in self isolation, offering information, a place to log symptoms and virtual consultations where necessary.

[Doctolib](#) the doctor appointment booking platform, has made its relatively new teleconsultation platform freely available to all doctors in France.

[Siilo](#) have seen a 500% increase in downloads almost overnight of their sharing app for the medical profession, helping Medical professionals around the world to securely share information regarding Covid-19 with their colleagues, and the wider Siilo network.

At Erevena and our sister company New Peak Partners, we're fortunate that our teams can work from anywhere in the world, carrying out searches. We have been encouraged to see so many clients continuing with their searches. We know that these are incredibly difficult times for everyone, so please feel free to reach out if you think we can help you with career advice, connections in our network or moral support.

I look forward to seeing you all on the other side,

Dan Hyde, CEO

This year we've seen a wide variety of searches take place for a range of clients that are Venture and PE backed, plus traditional companies looking to innovate.

Here are some of the highlights, with more details on our website.
