

Erevena Growth

erevena™

About us

Erevena Growth specialises in hiring first line managers and building their teams across sales, marketing, customer success, engineering, product and professional services functions.

We know how important and impactful these key individuals and their teams are and understand the different cost structures involved in hiring them.

We have the market knowledge, connectivity and relationships to build outstanding teams for businesses creating leading edge technology. We also support those disrupting established markets through technology, and corporations transforming their business models in response to innovation and disruption.

We've helped shape some of the world's most successful start-ups, building category winning teams across the B2B and B2C landscape. We've also partnered with some of the best-known consumer and enterprise brands to build teams to drive innovation and digital transformation.

Fee Structure

We endeavour to align our fee structure to suit specific client needs, business size and stage of business. We work on a retained basis but invoice only when agreed search delivery milestones are met. We are open to working on a fixed fee basis or as a percentage of the candidate's actual compensation depending on your preference.
