erevena™

WELCOME TO THE LATEST NEWS FROM EREVENA

2021 was a breakout year for the company. We doubled in size in terms of people and revenue. That kind of growth brings challenges and I'm proud to say that our team have met all of those challenges head on.

As part of our evolution as a company, we wanted to ensure that everyone who is helping to build Erevena can benefit from its growth. In Q4 we implemented a structure that allows us to become an employee owned business. This has been long term ambition for Jon and I. We are delighted and proud to say that our whole team will have the opportunity to own part of Erevena.

As always I'd like to thank our team, clients, investment partners and candidates and wish you all a successful year ahead.

Finally, we would like to express our support for the people of the Ukraine during this incredibly difficult time. Erevena has made donations to organisations who are providing essential help to those that need it and we hope and pray for a swift resolution to the conflict.

DAN HYDE
CEO

Early-Stage Talent Trends

Maddy Cross, Partner at Erevena, speaks with [Avalon Lee-Bacon](#), Head of Talent at Dawn Capital about early-stage talent trends and hiring. Maddy draws on her proprietary research The Unicorn Trajectory (published during her time as Talent Director at Notion Capital), which looks at the early leadership hiring decisions that were made in unicorns in comparison to other B2B software businesses that did not go on to achieve unicorn status, as well as her recent research piece looking at [who you should hire to raise a €10M+ Series A](#).

Erevena CFO Practice

We have been privileged to have partnered with some of the most impactful B2B software companies in Europe and the US in their search for finance leaders, from companies revolutionising the provision of health care, to solving the most complex data problems with enterprise AI. We are proud of the impact the CFOs we have attracted to these companies have already had.
